

Our Costs

We provide everything you require to make the day a success. An experienced falconer will “shadow” every guest ensuring you are fully involved in everything which occurs on the day.

For a full days hawking the cost will be £95 per person, a charge of £25 will be made for spectators.

Throughout the game season we are arranging hunting weekends in Mid Wales. We will be offering two full days hunting pheasants and rabbits the price of £150 per person, accommodation can be arranged in a small rural hotel.

Important Info

Falconry like any other field sport can be unpredictable and we cannot guarantee that wild quarry will make an appearance.

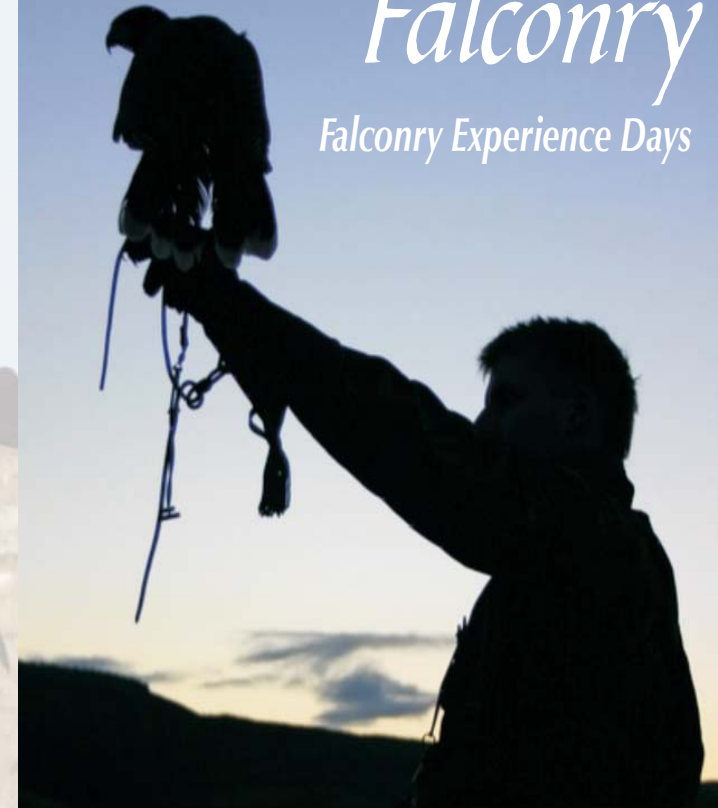

As our hunting days are conducted in the late Autumn and Winter it is essential that our visitors arrive dressed for the prevailing conditions and bring with them a packed lunch.

Please remember that all hunting and experience days are totally dependent upon weather conditions. Wind and rain can and will ruin a day. If we do postpone a day due to bad weather we will rearrange to suit you.

Flying High Falconry

Falconry Experience Days

Welcome to Flying High Falconry.

Our aim is to offer you the opportunity to discover the true nature of flying and hunting with birds of prey. Spend a day or two hunting with Hawks in some of Britain's most picturesque areas.

Tel. 01938 811810

Our Aim

Flying High Falconry is able to provide guests with quality hawking in beautiful Mid Wales within about two hours drive of Birmingham, Manchester and the Midlands.

Flying High Falconry offers the opportunity to have the ultimate experience of hunting with trained birds of prey. We provide exhilarating days out which will remain as memories for a lifetime.

We take a maximum of four guests each day and following an early morning breakfast and introduction to the team we will familiarise you with the birds you will be flying.

Our Hunting Area.

If you have ever thrilled at the sight of a wild hawk in pursuit of its quarry and have wished you could hunt with a hawk then this is your chance. We hunt from October through to February depending upon the specific game season, but provide Experience Days throughout the spring and summer.

Flying High Falconry also has access to almost 2,500 acres of land close to Kettlewell, North Yorkshire. This is perfect rabbit hawking land where we can promise you a great day out.

Due to the landscape, weather and physical demands imposed by hunting with birds of prey we would like to place a lower age limit upon our guests of twelve

Booking Details
